

# CORD CUTTING

## YOUR PLAN FOR DITCHING CABLE

Thinking about switching to streaming TV services? This guide will walk you through the process of determining if cutting the cord makes sense for you.

### Find your streaming services budget

Add the cost of your current monthly Internet and cable bills together. From that, subtract what you would be paying to have Internet service of at least 50Mbps for streaming video content. This is your break-even budget for streaming services.

### Calculate cord cutting costs

Add up the monthly costs of the streaming services you want. Take that number and see how it stacks up to your break-even streaming services budget.

You may save 100's of dollars per year by cutting the cord!
