

The City of Anacortes is conducting a Broadband Survey

TAKE A TAB AND TAKE THE SURVEY TO LET US KNOW WHAT YOU THINK

Due to a high volume of demand, the City of Anacortes is looking into expanding our utility fiber optic backbone for use by businesses and residents for high speed broadband services. This network would be available for any Internet Service Providers to offer service through, giving you the freedom to choose.

Email broadband@cityofanacortes.org for more information or visit <https://cityofanacortes.serviceszones.net> to take the survey.

This is only a survey to gather information.

There is no obligation to sign up or buy services.
